reason, Congress is making far progress." Judge Crumpacker concluded, "and may adjourn by July 1."

MR. BRICK, OF SOUTH BEND.

Representative Abraham L. Brick, of the Third district, who lives in South Bend, wants to see Charles W. Miller, of Goshen, nominated for attorney general. Mr. Brick said the district is solid for Miller and he believes that Miller will surprise his opponents by the rapidity with which other districts fall in line. "If I were at liberty to tell all I know," said Mr. Brick, with a confident smile, "I might give you some interesting information, but it is a little too early in the game to speak of combinations and other devices known to the public and candidates for office."

"The oleomargarine bill," said Mr. Brick, "has been a great deal of my attention lately." He said Mr. Brick, "and has been a great deal of my attention lately."

"I am pulling for a \$100,000 building," said Mr. Brick, "and I believe I will be successful."

"It is a source of great satisfaction to me," continued Mr. Brick, "that the fund which is practically settled and that the money to all intents and purposes is about the same as it was in the state treasury. It was money justly due the state and should have been paid before this."

MR. WATSON, OF RUSHVILLE.

James E. Watson, of Rushville, who represents the Sixth district in Congress, is at the Denison, and attends the convention particularly to fight the battles of Thomas B. Millikan, of New Castle, who seeks the nomination for state treasurer.

Although an earnest supporter of Millikan, Mr. Watson said some pleasant things last night about Nat U. Hill, of Bloomington, candidate for the same office. "It looks to me," said Mr. Watson, "as if the fight lay between Hill and Millikan entirely, and although Hill is a good man and an active campaigner I cannot help believing that Millikan will have enough support to win out."

"I don't think the newspapers have told the truth altogether," said Mr. Watson, "about the fight in the House over the Cuban tariff bill. There were some misrepresentations made which I believe should be corrected."

Mr. Watson said that the bill for the attitude of the Republicans who stood by the beet-sugar men to strike a blow at the Indians, was hurried through the House. "There was an effort to break down the present system of government in the House," he said, "and the bill for the attitude of the Republicans who stood by the beet-sugar men to strike a blow at the Indians, was hurried through the House."

REV. A. LESTER HASLETT CONVERTED BY A VISIT TO MANILA.

W. C. T. U. Agent Who Found Moral Conditions Better Than Ever Before in the Philippines.

CAPTAIN COGHLAN PROMOTED

"HOCH DER KAISER" RECITED AT POINTED A REAR ADMIRAL.

Bishop Grant and Other Colored Race Leaders Before the House Committee on Labor.

Special to the Indianapolis Journal.

WASHINGTON, April 21.—A report on the moral conditions in the Philippines made by Rev. A. Lester Haslett, of the W. C. T. U., of Columbus, Wis., was today presented to the Senate committee on the Philippines by Senator Lodge. Mr. Haslett in his report says the moral conditions in the Philippine archipelago is today better than it ever was in its history. "The problems that confront the authorities in Manila," says Mr. Haslett, "are similar to those confronting us here at home. When some American city shall have reached a happy solution of their vexing problem, then may we chide our government in the Philippines for proving recalcitrant."

Mr. Haslett concludes his report with these observations: "I went to the islands as an ardent anti-expansionist; I returned a firm believer in the policy of the administration. I frankly confess that I had a wrong idea of conditions in the archipelago. I believe the people ready for self-government; now I know that while some of them are, the great mass of the people are not capable of it, but they will be, and that, perhaps, before a generation has passed, I went to Manila with the thought that I would find a people who were ready to be ruled by a foreign power, but I am now convinced that future generations of Americans in the Philippines will find it to be a blessing and honor to them as well as to the United States. We are laying foundations for a nation that may outlast our own. We owe it to the future that we lay well the cornerstone of the superstructure."

Senator Teller today introduced a resolution declaring it to be the sense of the Senate that the section laws in force in the Philippines should be repealed. The resolution is preceded by a preamble citing the fact that the United States has acquired the Philippines by treaty, and that the United States has a duty to provide for the welfare of the people of the Philippines.

Senator Beveridge and J. A. Matthews, private secretary to Senator Fairbanks, left this afternoon for Indianapolis. The senator called on the President this morning.

W. L. Ryan, of Indianapolis, is at the New Willard.

The controller of the currency today authorized the American National Bank of Frankfort, Ind., to begin business with a capital of \$100,000. John A. Rose, a president and former Bracken cashier.

President Roosevelt took out a large life insurance policy today. The premium is the usual one for a man forty-three years of age.

Soon must the new cabinet name a minister to the new republic of Cuba. The President has not decided upon anyone for the position and will reserve the selection for the present. Owing to numerous important diplomatic questions likely to arise immediately after the inauguration of the new republic, the President is thinking strongly of a man competent to handle the delicate situation.

The President today sent the following naval nominations to the Senate: Captain James B. Coghlan, to be rear admiral; Captain James H. Sands, rear admiral; Surgeon General John A. Rose, to be surgeon; Howard F. Strine, Pennsylvania, assistant surgeon; Gunner Joseph R. Ward, to be gunner.

The nomination of Rear Admiral C. Taylor, to be chief of the bureau of navy, was also sent to the Senate. The White House today from the Navy Department, Admiral Crowninshield's resignation from the active service was received. The President. The change will be made on the 28th inst.

The ways and means committee today ordered a favorable report on the bill of Representative McCall, of Massachusetts, to refund the taxes upon legacies for the use of religious, literary, charitable or educational purposes.

Senator Foster, of Louisiana, today introduced an amendment to the Cuban reciprocity bill providing so soon as the President shall proclaim that Congress and the government of Cuba have enacted the immigration, exclusion and contract labor laws, that the bill should be conducted in lieu of the tariff now imposed by the Dingley law upon articles imported from foreign ports.

A delegation of prominent colored men, including Governor Pinbacker of Louisiana, ex-Congressman White, of North Carolina, and Bishop Grant, of Indianapolis, had a hearing today before a subcommittee of the House committee on labor, in favor of the bill of Representative Irwin, of Kentucky, for a commission to inquire into the status of the colored race. Reference was made in the addresses to the growing estrangement between the races and the need of knowing its causes in order that remedies might be applied. The speakers urged that the inquiry should be conducted on a strictly nonpartisan basis and without political motives. The Democratic member of the subcommittee, Mr. Estlin, of Ohio, and the two Republican members, Messrs. Bartholdt, of Missouri, and Gardner, of Ohio, declared they were ready to accept the full committee that the inquiry be authorized.

Governor Taft arrived here today from St. Louis and will remain about a week as the guest of Adjutant General Corbin. He is very much improved in health, but has not yet entirely recovered. While here he will dispose of a number of departmental questions which have arisen since his return from Manila. Late in the afternoon Governor Taft called on the President and was in consultation with him for some time. He had nothing to communicate beyond stating that he probably would sail from New York on May 1, leaving his family at some point in Europe until all danger from the cholera epidemic in Manila had passed.

The conferees on the Chinese exclusion bill held their first conference today, and without reaching a conclusion, adjourned to meet to-morrow. The meeting today was devoted to a general exchange of opinions on the merits of the two bills. The

representatives of the Senate pressed very hard for the acceptance of the Senate substitute, and while the House members responded, with a few possible additions, will be reported to the Senate committee on the subject by the members of the conference that a conclusion will be reached at tomorrow's meeting.

In executive session the Senate, at the request of Mr. Proctor, today agreed to take up the nomination of General Crowder to be chief of ordnance on Thursday next.

A general order issued by General Wood directs the Third Battery of field artillery, now at Columbia barracks, Cuba, to prepare to move to the Philippine Islands. The battery was formerly stationed at Fort Meyer, Virginia.

President Knapp and his associates of the Interstate-commerce Commission were before the House committee on interstate and foreign commerce today, in support of the bill for the regulation of interstate commerce Commission act so as to prevent rate cutting, paying of rebates, etc.

The complete report of Colonel Crowder, of the adjutant general's department, as to his inquiry into conditions at Port Chalmette, whence supplies are being shipped to South Africa, is now in the hands of the President. An important fact in connection with the document is that it makes no recommendations of the treatment of the

War Department officials say that in making this inquiry Colonel Crowder acted as a person and so he is not accountable to the department, and for this reason they decline to make any comment as to the character of the report, and for his part Colonel Crowder declares that it is for the President alone to decide whether or not he will accept of it as he desires. It is said that the document will be held before the Cabinet at tomorrow's session.

Senator Dietrich today introduced a bill to authorize the President to enter into a reciprocal agreement with the permanent government of Cuba, respecting trade between the United States and Cuba. It provides that when such permanent government is established the President is authorized to enter into such agreement with Cuba whereby the United States binds itself to the Cuban government to admit all articles from the United States subject to the payment at the rate of 10 per cent of the value of the goods at the time of importation, and to the United States to pay to the Cuban government for the fiscal year ending June 30, 1902, 25 per cent of the fiscal year ending June 30, 1903, 25 per cent of the fiscal year ending June 30, 1904, 25 per cent of the fiscal year ending
